

TIERCE CONSTRUCTION, INC.

REMODELER

TESTIMONIALS

“I used Tierce Construction to do a major remodeling job on my bathroom. We decided to gut out the entire bathroom and update it with the latest in style for a bathroom. My cabinets we had custom made to my preferences, design and style, which Doug Tierce picked the person for that and his choice was very good. We put in a granite shower with a bench in it and all glass around it. It turned out beautiful!!! The bath tub we chose was a soaker tub with a granite deck with Travertine to accent it and on the floor. The experience was so good that we decided upon doing this to redo another smaller bathroom, and had the floor replaced in it. I have been very pleased with this company.”

Jayne Hardy

“I discovered Tierce Construction through Angie’s List. Their internet web site was impressive, and I was initially a little hesitant to contact them because I needed only a few small jobs done, was afraid they might not be interested. They were not only interested, but scheduled the job almost immediately. Doug Tierce, the owner, personally did my work and I found him to be professional, neat, and congenial. I had estimated it would take around six hours to complete my projects, but Doug knocked them out in four. This particularly impressed me because Doug quotes his hourly rate up front, and his speedy work saved me money. Doug and I have already discussed several other, larger projects required around my house, and I have no qualms about him or his subcontractors doing anything I need. I am now in the “Senior Citizen” age category, disabled, and can no longer do many of the things I once did for myself and my family. In a day when many are looking to take advantage of you, Doug and his company are a godsend. I recommend him highly. “

William T. (Bill) McLarty, Mobile, AL

“Tierce Construction completed three successful home improvement projects for our home. The first was a remodeling of our master bathroom and dressing area. The second was a complete patio make-over. The third was a complete remodeling of an exercise room, bathroom, and utility room. Doug worked closely with us on all aspects of each project--initial design, project planning and scheduling, worker supervision, and project completion. The projects were done on time, within budget, and to our satisfaction. Doug was also prompt in responding to minor issues following project completion.”

“We called on Doug to do a major renovation for us when we were new to Mobile. We connected with him through a referral from two of our new neighbors and we are glad that we did. Doug and his crew did a great job for us from demolition through finishing. He worked closely with us at each step to make sure that we got the results that we wanted. It is really nice to have someone that you can refer confidently to friends. We have since referred Doug to several friends and each has expressed their full satisfaction with his work. We will continue to call on Doug when we have construction needs and to confidently refer him to others because we know he will do a great job!”
